Abstract (Basic): WO 9731266 A

Phototoxicity and/or photosensitivity of substances (individually or as a mixture) is determined by:

pa-622762

Docket No. 441472000110 U.S. Serial No.: 09/864,621

- (a) contacting the substance(s) either with a non-human vertebrate embryo or with tissue or cells from a vertebrate embryo (except human skin cell cultures);
- (b) irradiating with electromagnetic radiation in the range of 1 $\,$ mm-200 nm, and
 - (c) evaluating embryo, tissue or cell pathology.

USE - The method is useful in investigating biologically active substances, especially pharmaceuticals, herbicides and insecticides, as well as light-screening substances.

ADVANTAGE - The method is simple and satisfies ethical requirements.
